Profile

I am aiming to use the combination of my technical and creative backgrounds to create state-of-the-art and user-friendly websites. I have a good eye for good, clean design and a methodical approach to conception and development.

Professional Experience

2001 - 2008, CHROME Imaging SA - Geneva, Switzerland

User Interface Designer, Product Manager

My main responsibility at CHROME Imaging was to research and design the ergonomics and interface of the company's film processing software.

Responsibilities

- Designing and developing the company's corporate website (XHTML, PHP).
- Managing and writing web content
- Managing the company's brand and ensuring a solid visual identity
- Designing and creating company literature such as brochures, posters and flyers
- Demonstrating the company's products at various international conferences and tradeshow
- Training new users and new employees

2006, Lazennec Productions - Paris, France

Feature Film Title Design, Animator (Credited)

Under the supervision of a producer and art director, I designed and animated a 3-minute title sequence to a pre-existing soundtrack for the film "La Cloche A Sonne".

Responsibilities

- Creating a "look" according to the production company's brief.
- Researching typefaces and typography for the title plates
- Digital and expression-based animation

2000, Labo SO2 - Geneva, Switzerland

Web Design, Web Graphics

I was hired as part of the web design team by this design collective to create, edit and enhance web graphics for the Raymond Weil corporate website.

Responsibilities

- Image retouching and processing
- Web graphics optimisation to multiple formats

1999, Deltagraph Publications - Athens, Greece

Columnist, Game Reviewer, Translator

I reviewed games and wrote a column for the Greek edition of "The Official Playstation Magazine".

Education & Seminars

1997 - 1999, Athens Art and Technology Institute (AKTO) - Athens, Greece Associate's Degree, 3D Animation & Multimedia Production

During my studies at AKTO, I completed the following courses to receive my Associate's degree:

- Image Processing, 3D Modeling & Animation Techniques I,II
- Drawing Skills I,II
- Concept Development, Design and Directing I,II (storyboarding, editing)
- Digital Audio Processing & Multimedia Production I,II
- Design for the Moving Image I,II
- 3D Animation & Post Production I,II

Seminars

- Sept. 2007, Adobe CS3 Training, IBC 2007 - Amsterdam, NL
- Apr. 2007, Kodak Display Management, NAB 2007 - Las Vegas, USA
- Oct. 2006, User Interface Software & Technology Conference (UIST) - Montreux, CH
